

The Standards Technical Committees (STCs) are composed of industry experts vetted by BPI's Standards Management Team upon application and careful review to ensure that its membership is composed of participants from diverse interest categories and that its decisions are balanced, reflecting the views of all industry stakeholders in a transparent process.

Scope: Standardization activities include:

- Assessment of residential buildings to improve the energy efficiency, limited aspects of building durability and occupant comfort, health and safety
- Test methods
- Material specifications
- Installation of various energy conservation and energy efficiency measures to the building envelope and building systems
- Application standards for these measures
- Verification and commissioning of building envelope and building systems
- Other ancillary standards that might be needed to support these activities, including data collection/analysis/reporting and on-site energy (solar, wind, fuel cells, combined heat and power)
- Review the information below to view the current members of each of the Standards Technical Committees.

Single Family Standard Technical Committee

Chair: Robert O'Brien, Technical Heating, Industry

Current Membership:

- Mimi Burbage, Alaska Housing Finance Corp, User
- Robert DeVries, NuWool Co Inc, Industry
- Bill Eckman, Oak Ridge Research Laboratory, Industry
- Jason Fisher, ICF, General
- Brian Haggerty, TRC, General
- Earl Hicks, New York State Homes & Community Renewal, General
- Joe Konopacki, Insight Property Services, User
- Zach Merrin, Champaign County Regional Planning Commission - Indoor Climate Research & Training, General
- Doug Pearl, LEADS Community Action Agency, User

Multifamily Standard Technical Committee

Co-Chairs: Jerritt Gluck, Bonded Building & Engineering, Industry, and Amy Dryden, Association for Energy Affordability, User

Current Membership:

- Dan Auer, King County Housing Authority, User
- Eliot Benor, Building Envelope Testing, LLC, Industry
- Sarah Hill, Association for Energy Affordability, General
- Kathleen Jakober, Tetra Tech, Industry
- Mike Maroney, TRC Solutions, General
- Christopher Steinhoff, Elevate Energy, User

Data and Modeling Standard Technical Committee

Chair: Robin LeBaron, Pearl Certification, Industry

Current Membership:

- Jennifer Amann, ACEEEED, General
- Torsten Glidden, Lindahl Reed, General
- David Heslam, Earth Advantage, Industry
- Damian Hodgkinson, HALCO Energy, User
- Gamaliel Lodge, OptiMiser Energy, Industry
- Sydney Roberts, SEE Alliance, General

Standards Technical Committee Working Groups

HPXML Work Group

Chair: Noel Merket, Pearl Certification

BPI-2400 Work Group

Chair: Gamaliel Lodge, OptiMiser Energy
